## AGII Sales VS National GDP Growth

- AGII has consistently outperformed National GDP Growth; Fluctuations may occur due to certain economic factors, yet long term trend relatively consistent
- AGII's ability to supply via a diversified, yet reliable mode of distributions have served well in getting products delivered in a timely manner. However, we experienced a slow down in medical gas demand during 2022, primarily due to post-COVID sales normalization
- AGII is the only scalable player in Healthcare and Retail clients due to the Company's Diversified Portfolio and Nationwide Network
